Request for Proposals
RFP Number: 2016-009

Addendum # 1

MOBILE ALABAMA CRUISE TERMINAL
PARKING SHUTTLE SERVICE

The City ("City") of Mobile is amending its Request for Proposals (RFP) for Parking Shuttle Services for the Mobile Alabama Cruise Terminal.

On page 2 of the solicitation, the RFP states that the shuttle "vehicle must have handicap passenger access." The City instead intends that adequate handicapped parking will be available within the Cruise Terminal and handicapped persons will be directed to park in the Cruise Terminal and not at the Civic Center overflow lot. Since the shuttle service is for the Civic Center overflow lot, handicapped access will not be required of the shuttle service.

On page 3 of the solicitation, the RFP states that "all drivers must have obtained a TWIC (Transportation Worker Identification Credential) and must have the card in their possession." The City has determined that, since shuttle drivers will not require unescorted access into the Cruise Terminal building, and only into the parking garage, shuttle drivers do not need a TWIC.

Proposals remain due to the City at 4:00 pm, CDT, Friday, September 16, 2016.
