ADDENDUM II

January 22, 2019

RE: City of Mobile Bid #5247 for Disposal Service for Blood Contaminated Medical Products, Supplies and Sharps.

Gentlemen:

Please consider this to be Addendum II to City of Mobile Bid #5247 for Disposal Service for Blood Contaminated Medical Products, Supplies and Sharps.

Page 1

DELETE:

Vendor shall replace filled boxes with empty containers on a one for one basis.

REPLACE WITH:

Vendor shall replace filled containers with empty containers on a one for one basis.

Add to Page 4:

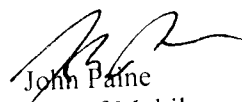

Due to ongoing Fire Station renovation and repairs, some stations may be closed extended periods of time. The City will notify the drivers of the pending close of a station. The City will not pay for dry runs at closed fire stations. There may however be circumstances where notification is not possible due to emergency closures, water leaks, heating and cooling failures, storm or building failures or even a fire – (yes firehouses do have fires).

Vendor will be responsible to pick up unused containers at conclusion/end of contract. City will not pay containers or pay to return them.

City will not allow subcontracting of the pick up of medical waste.

Thank you for your consideration in this matter.

Sincerely,

John Paine
City of Mobile
Purchasing Agent
