	Vendor will be responsible to mow and edge those areas adjacent to the		•

	the City Right-of-Way or the tree line which ever is further out.					
			!			
ĺ	Vendor will mow to the edge of privacy fencing where the property					
	owners do not have access to the area to be mowed between the fence					
	and right-of-way.					!
	The City's desire is to have all areas mowed approximately between the					
	date of award, and October 31, 2018. The mowing cycles will					
	have all areas mowed on a 7-day cycle changing to a 14-day cycle at the					
	instruction of the City until October 31, 2018.					
	instruction of the city with october 52, 2520.					
	If the bid is extended for additional mowing season the season will begin					
	in April on a 14 day cycle moving to a 7 day cycle at the instruction of the	Ì				
	City of Mobile in May and returning to the 14 day cycle in October or at					
	the instruction of the City of Mobile. The plan is to have all areas					
	mowed approximately 27 times between April and October. There will					
	be no guaranteed mowing in this contract. City will not have mowing					
	done if grass is not growing.					
	There is no guarantee on the number of cycles to be completed.		i			
	Because our rights-of-way are predominantly Bahia grass, 7-day cycles					
	are the proper intervals for most of the contract period. Only at the					
	beginning and end of the contract period will a 14-day cycle be used.					
	Since weather has a significant impact on grass growth, optimum cycle		1			
	times will be determined by the City of Mobile.					
	The City's desire is to have all areas mowed (1 mowing cycle) once every					
	seven (7) days unless the City notifies the contractor otherwise. Cycle					
	times may be adjusted if weather results in slower growth of the grass.					
	In the event that weather, rain, etc., disrupts the schedule, weather					
	records should be noted on the contractor's submitted schedule of					
	completed mowing cycles to explain any variances in mowing cycle					
:	times; payment shall not be made for a missed operation.

## MAPS OF EACH STREET ARE VIEWABLE AT THE FOLLOWING LINKS:

The following general link lists the individual streets:

http://maps.cityofmobile.org/bids/5160

### Mowing

- Uniformly mow (without scalping or streaking) at the proper height for the type of grass:
  - O Bahia -2.5" (no less than 2.25", no more than 2.75") as measured from the soil line
- Mowing equipment shall consist of finishing mowers; bush hog types of mowers are unacceptable
- Blades must be sharp and provide a clean cut
- All guards must be in place
- Clippings need not be removed, but shall be mulched and/or spread uniformly to avoid clumping; large clumps shall be removed
- Litter, including signs, to be removed prior to mowing
- Mowers shall avoid striking trees; damaged trees shall be replaced
- Contractor shall complete each area (including string trimming, edging, blowing) before moving to the next
- To avoid rutting, contractor shall avoid driving heavy mowing equipment on ground that is saturated after heavy rain; ruts shall be repaired

## **String Trimming**

- Vegetation shall be controlled on and around trees, signs, posts, fences, utility poles, light poles, bleachers, foundations, and all stationary objects using a string trimmer
- Vegetation growing in expansion joints, cracks, etc. shall be removed
- String trimming shall be considered an integral part of mowing and shall be done at the same time as the mowing operations for each area
- Trimming shall be at the same cutting height listed for the surrounding grass
- Damage to trees is a particular concern with string trimmers; contractor shall ensure that string trimmers do not come into contact with trees; damaged trees shall be replaced
- String trimmers shall not be used to mow large areas, they shall only be used for trim work and where a mower cannot reach

### **Edging**

- All concrete walks, curbs, foundations, etc. shall be edged
- Edging shall not be done more than 1/4" from the edge of the concrete

• Edging shall be considered an integral part of mowing and shall be done at the same time as the mowing operations for each area

- A copy of the MSDS sheet and label must be present whenever the herbicide is being used
- A Daily Pesticide Application Sheet must be kept and submitted for each cycle and upon request

#### Miscellaneous

- Contractor shall notify the designated City contact(s) using e-mail or text
  message when starting and completing a street. Phone calls or voice mail is
  insufficient. An inspection will not be performed until the City is properly
  notified, potentially allowing vegetation to grow or litter to accumulate,
  which would require the contractor to revisit the site before payment is
  released.
- When notifying City contact of the completion of a cycle, contractor shall report the number and size of bags of litter collected per cycle by street

- When notifying City contact of the completion of a cycle, contractor shall submit the Daily Pesticide Application Sheet listing any herbicides used for that cycle
- In the event that rain disrupts the schedule, weather records should be noted on the submitted schedule to explain any variances in mowing cycle times; payment shall not be made for a missed operation
- Unless explained by the aforementioned weather records, if the cycle time exceeds the specified number of days the contractor may be penalized 2% of the total cost of that cycle per day that the cycle time is exceeded
- All specifications must be met before payment is released for a maintenance cycle
- Any initial cleanup is included in the bid price.
- This contract ends on October 31, 2018 and is for a maximum of 27 cycles (if the contractor is not asked to extend a cycle)
- Shrubbery beds are not included in the contract, except with regard to litter removal

- Tree pruning shall remain the responsibility of the City
- Except as noted, the use of pesticides, including herbicides, insecticides, and fungicides shall not be permitted without prior approval
