MESSAGE FROM THE MAYOR

WILLIAM S. STIMPSON

Mayor,
City of Mobile

I want to start by simply saying thank you to every single employee in the City of Mobile's Public Works Department. Public Works is our second largest department — spanning multiple sub-departments and touching almost every aspect of local government. From Public Services and Parks and Recreation to Major Projects and Facilities Maintenance, the work these employees do every day directly impacts Mobilians' quality of life. As in previous years, Public Works' accomplishments in 2022 were remarkable.

In 2022, Parks and Recreation dutifully managed more than 1,700 acres of land, 89 athletics fields and dozens of community spaces. Our Events staff hosted 108 community events that entertained, educated, and engaged more than 374,000 Mobilians and visitors. Architectural Engineering oversaw 161 capital projects and thousands of work orders for maintenance at public facilities across the city. Build Mobile continued to innovate the ways we do business in Mobile by pushing for much needed updates to our zoning ordinance and the fire, construction trade and maintenance codes that keep Mobilians safe. Public Services repaired nearly 8,500 feet of sidewalks throughout the community, removed 56,760 pounds of litter from our roadsides and consistently provided

vital sanitation services for Mobilians, rain or shine.

This year, the Public Works Department also led the City of Mobile to several significant milestones in transformational projects and major initiatives. These include things like the Broad Street Revitalization project, the restoration of 12-Mile Creek, the Brookley by the Bay waterfront park development, the improvements in Mardi Gras Park, charting a course to improving the Mobile Civic Center and taking on the first comprehensive resilience assessment in the City of Mobile's history. All these efforts and many others are making the City of Mobile a better place to live, work and raise a family.

This annual report gives an overview of what Public Works has done in 2022. These numbers are very impressive on paper, but the real work is happening daily in our communities, on our roadsides and in our public parks and facilities. As you review this report, please remember it takes consistent hard work from thousands of members of our Public Works team to make these kinds of successes possible.

God bless our team members, our citizens and the City of Mobile.

William S. Stimpson

MESSAGE FROM EXECUTIVE DIRECTOR

JAMES DeLAPP

Executive Director,
Public Works, City of Mobile

Greetings and welcome to the second edition of the Public Works Annual Report! It is with great pride that we can present a summary of the many accomplishments your Public Works team achieved during 2022.

The past year we overcame the shadowing affects and challenges of the global pandemic and rose above the lingering aftermath, including continued struggles to obtain materials and equipment due to shortages in the supply and logistics chain. We have also faced significant escalation in the cost of goods, materials, and services. Despite these challenges, our city has continued to deliver our projects and services to its citizens.

The city has engaged a record number of architects, engineers, and contractors in the planning, design and construction of countless new facilities, improvements, and other projects. Inside this Annual Report, you will see many of these accomplishments as well as many of the impressive numbers that reflect the efforts of the entire team throughout the year.

Much of the work continues to be accomplished with short-handed personnel due to challenges in hiring new staff. It is our continual goal to hire and build our

team so that we have the right people in-place to achieve our goals.

Despite the challenges in recruiting, over the past year, we have hired many new employees and key staff. A key appointment is our new Director of Public Services, Marc Vassallo, a thirty-three-year veteran from the U.S. Air Force. As a career maintenance officer, Marc brings a unique skill set that is greatly needed in Public Services, Public Works, and the city of Mobile. Marc has demonstrated excellence in leadership, executive management and employing visionary goals to implement change.

Public Works continues to become more proficient in the use of e-Builder for project management while enhancing the digital project dashboard to allow the Citizens to see projects happening throughout the city. Public Works continues to field NEXGEN, a new service request order system, enabling better input, management, and execution of work orders and our 311 system. Public Works has also been working closely with our communications department in the development of the new Public Works website that should be live by the end of the year.

In April the minimum wage increased to \$15.22 per

hour and a 2.5% cost of living adjustment was made to counter the rising costs from inflation. This has been transformative in our departments ability to recruit and fill our vacant positions. However, like all sectors of industry the city continues to have many vacancies to fill to be at full operating strength. In addition, the city provided a 2.5% merit raise to all eligible employees.

The City of Mobile should be very proud of the many accomplishments that have been made by the Public Works team and should expect continued great things in the coming year.

A handwritten signature in black ink, appearing to read "J. A. DeLapp". The signature is stylized and fluid, with a large loop at the beginning and a sharp end.

MISSION

The City of Mobile Public Works Directorate will strive to maintain, improve, and preserve Mobile's infrastructure, services, and environment for the residents, businesses, visitors, and future generations of every neighborhood in our city.

VISION

To become the best and most dependable public entity in the City of Mobile.

VALUES

Safety, Professionalism, Open Communication, Respect, Teamwork, Service (SPORTS)

SAFETY

We work to protect our employees and communities from injuries and hazardous conditions. No job is so urgent or important that it be performed in an unsafe manner. Always think Safety First!

PROFESSIONALISM

We are professionals in all that we do. We are expected to be competent in our skills and craft. How we look, how we act, how we communicate are all done in a professional manner. Honesty, integrity, and accountability are hallmarks of a professional.

OPEN COMMUNICATIONS

We will communicate with each other and those we serve in an open, clear, and transparent manner. Open lines of communication are a key to successfully achieving our mission and vision.

RESPECT

We treat each other and those we meet with respect, fairness and understanding. Treat others as you would want to be treated. We are inclusive of all people regardless of the diversity of their background or perspectives. We educate our workforce to be aware of cultural or other bias to strengthen our competency as a single team.

TEAMWORK

We are one team. We work together to achieve our mission, goals, and objectives in the most efficient way. We always support each other regardless of title, position, or job description. We cannot accomplish our mission alone and must rely on the team.

SERVICE

We have chosen to serve the citizens of our City. This is a higher calling which often entails certain sacrifices. The reward for service is not always in the amount we are paid, rather in the pride and satisfaction of knowing we helped others and made our City a better place now and for the future.

PARKS AND RECREATION DEPARTMENT

The Parks and Recreation Department provides services, facilities, recreational and social activities for all citizens of Mobile. Parks and Recreation is comprised of five sub-departments including Operations, Parks, Recreation, Events, Azalea City Golf Course, and the Mobile Tennis Center. The Parks and Recreation Department has the following Vision Mission Core Values and Goals.

SHONDA SMITH

Senior Director of Parks and Recreation

GERARD W. McCANTS

Operations Manager

DANIEL OTTO

Superintendent of Parks

SHADRACH COLLINS, JR.

Recreation Superintendent

JONNI LEE NOTTINGHAM

PLANNING AND ZONING DEPARTMENT

The Planning and Zoning Department serves as the staff for the Planning Commission and Board of Zoning Adjustment and is responsible for administering and enforcing the City of Mobile's Zoning Ordinance and Subdivision Regulations.

12

Board of Adjustment Meetings

24

Planning Commission Meetings

UNIFIED DEVELOPMENT CODE (UDC)

After a series of public hearings, the City of Mobile adopted the Unified Development Code (UDC) in July of 2022. This zoning code overhaul represents a six-year effort to modernize the city's existing land use regulations.

This multi-year process involved:

- A complete overhaul to the City's 1960s-era zoning regulations
- Extensive community engagement efforts resulting in over 300 stakeholder meetings
- Multiple Planning Commission and City Council hearings to obtain required public feedback and input

PERMITTING DEPARTMENT

The Permitting Department is charged with facilitating all plan reviews and construction permits within the City of Mobile.

15,867

Permits Issued

551

Flood Development Reports Processed

104

Predevelopment Meetings

INSPECTIONS DEPARTMENT

The Inspections Department conducts all building, mechanical, electrical, and plumbing inspections for the City. Additionally, the City of Mobile adopted the following codes effective February 7, 2023: 2021 International Fire Code, International Building Code, International Residential Code, International Existing Building Code, International Mechanical Code, International Residential Code, International Existing Building Code, International Mechanical Code, International Plumbing Code, International Fuel Gas Code, International Property Maintenance Code and 2020 National Electric Code.

4,130

Building
Inspections

4,192

Mechanical
Inspections

4,796

Plumbing
Inspections

5,762

Electrical
Inspections

HISTORIC DEVELOPMENT DEPARTMENT

The Historic Development Department serves as staff to the Mobile Historic Development Commission (MHDC) and the Architectural Review Board (ARB) and is responsible for administering and enforcing the City of Mobile's Preservation Ordinance in Mobile's seven locally designated historic districts. In addition,

Historic Development ensures the City fulfills its responsibilities under its Certified Local Government agreement with the National Park Service.

484
Applications reviewed for
Certificates of Appropriateness (COAs)

393
Issuance of COAs (representing
work valued at \$21,190,718.60
in Mobile's historic districts)

91
Preparations of staff report/
recommendations for the ARB

LONG-RANGE PLANNING DEPARTMENT

The Long-Range Planning Department provides the staff support to the Mobile Planning Commission for the implementation of the Map for Mobile and its subcomponents the Future Land Use Map and the Major Street Plan. The Map for Mobile provides guidance for the future growth and development of the City of Mobile.

Long Range Planning undertook the following efforts during 2022:

- **Neighborhood Toolkit** - Long Range Planning is working with the Toulminville community to craft its first neighborhood-level plan. Multiple meetings have been held in 2022 with the neighborhood steering committee and the greater community, with the goal of drafting the community's first ever neighborhood plan.
- **Planning Retreats** - Two Planning Retreats were held in 2022. The purpose of the retreats was to inform and communicate concerns, projects and needs between the multiple entities and organizations which impact the growth and development of Mobile.

ENGINEERING

The Engineering Department maintains and improves the City's infrastructure thru capital projects utilizing local engineering and construction companies, as well as permits efforts being done throughout the City right-of-way. The Engineering Department has five sub-departments that include Capital Engineering, Environmental Engineering, Traffic Engineering, Electrical Department, and Right-of-Way Permitting.

RESILIENCY

The Office of Resilience is responsible for the strategic pursuit of comprehensive resilience priority areas including environmental, social, economic, and infrastructure improvement goals. Working within and across the community in collaboration, we strengthen the City of Mobile's ability to address the systemic stresses and challenges we face, as well as enhance our ability to prepare for and rebound from acute shocks. We are working to create solutions in a place-based, integrated, inclusive, risk-aware, and forward-looking manner.

CASI CALLAWAY

Chief Resilience Officer

Priority topics include addressing litter, recycling, flooding, and working to better understand the gaps and strengths in our ability to address resilience across the city. In 2022, we accomplished the following:

- **Kicked off the Resilience Assessment and Plan** - 51 stakeholders attended workshops plus more than 30 City Staff members are working on the Vision for a Resilient Mobile.
- Won ADEM Recycling Grant \$340,000 to launch a Feasibility Study, develop and Education/Marketing Campaign, and open a 3rd Recycling Center.
- Kicked off a Litter Demonstration Project to test the effectiveness of trash cans in shopping centers.
- Supported the Mobile Chamber launching the Litter-Free Leaders Program to reward businesses for going above to keep our City Litter-Free.
- Supported Mobile United to expand the Martin Luther King, Jr. Day of Service Clean-up to all 7 city council districts.
- Hosted two clean-ups with the Mayor's Leadership Team resulting in 1,180 pounds of litter removed from the Mobile Terrace/Hillsdale community and 868 pounds plus 16 tires from the Maryvale community.
- Created, updated, and launched the Litter Education Booklet for schools to have easier access to education programs hosted by the City of Mobile's non-profit environmental organizations.
- Developed a Flood Information webpage for City residents.
- Developed Emergency Checklist for Disaster Planning.
