## Updated Traffic Detour at Dauphin and Broad Streets

---

*MOBILE, Ala.* – Beginning Wednesday, May 26, barricades along side streets impacted the construction at the intersection of Dauphin and Broad streets will be replaced with water-filled jersey barriers. These barriers will be located to the interior of the streets, rather than at the intersection of Dauphin Street or Old Shell Road for safety purposes. There will also be traffic signs, warning signs, and barriers. The attached detour map will show where the water-filled barriers will be placed. Please remember the Mobile Police Department is enforcing the current traffic detour and will continue ticketing anyone who disturbs or destroys traffic barricades or signage (including chaining or tying) and enforcing the posted speed limits.

The latest Revitalizing Broad Street construction project information is available online at <https://www.cityofmobile.org/reconnectingmobile/home/>. This page is the fastest and easiest way to stay informed about scheduled lane closures and other construction-related impacts.
