Closure Update at Springhill Avenue and N. Broad Street

Mobile, AL – Travelers will notice the following traffic pattern changes on N. Broad Street:

The temporary closure of N. Broad Street from St. Louis Street through the Congress Street intersection has been extended through Monday, July 6.

Once the section has been reopened, the intersection of N. Broad Street, Springhill Avenue and St. Louis Street will be closed for utility relocation, drainage rehabilitation and resurfacing beginning the night of July 6, lasting through Nov. 6. Crews will install a temporary traffic signal for the N. Broad Street and St. Anthony Street intersection.

Springhill Avenue eastbound traffic will be detoured to St. Anthony Street during this operation. St. Anthony Street will be open to two-way traffic between Springhill Avenue and N. Broad Street. Access to the Shell gas station on N. Broad Street and to the Alabama Credit Union on Springhill Avenue will be maintained throughout the closure.

Signs and variable message boards will be in place to alert drivers of the closure and alternative routes. If possible, drivers should seek alternate routes. The following streets will be utilized for the local traffic detour:

- N. Washington Street
- St. Anthony Street
- Dauphin Street
- St. Francis Street
- Congress Street

Trucks and oversized vehicles will use Water Street and Government Street as a detour.

All activities are weather-dependent and may be delayed or rescheduled in the event of inclement weather. Drivers are reminded to obey the 25-MPH speed limit and to use caution when traveling through the work zone, especially at night. Motorists should watch for construction workers and equipment entering and exiting the roadway.
