

## **BLOCK PARTY BARRICADE RENTAL**

### **FREQUENTLY ASKED QUESTIONS**

**I have a permit from the Mobile Police Department for a block party. Does that mean I'm all set up to have barricades too?**

NO! You must complete a separate Barricade Rental Form with the City's Traffic Engineering Department. You must do this at least one (1) week before the day of your event.

**Where is Traffic Engineering? What are their hours?**

We are located at 852 Gayle Street, south of Virginia Street and south of the City's Public Works Complex. You may come by between 8:00 am and 3:30 pm ONLY Monday through Friday.

**How much does the barricade rental cost?**

The typical block party is \$75. This is a minimum charge that allows up to thirteen (13) barricades. If you require more than 13 barricades, the cost is \$5.50 per barricade.

**How many barricades do I need?**

Each end of the street(s) being blocked is allotted two (2) barricades. The exact number needed depends on the number of streets approved to be closed.

**Can I rent additional barricades for my event?**

NO! This rental is for "Road Closed" barricades only. The barricades are to be used to close the City street only. The barricades are not permitted to be used on private property.

**How can I pay for my barricades?**

Payment is made when the rental form is submitted. You must come to Traffic Engineering to submit the form and the payment. We can accept EXACT cash, BUSINESS check, cashier's check, or money order, payable to "City of Mobile".

**If I have further questions, who can I call?**

The primary contact is LaDonna May at (251) 208-2960.
